

SIZE GUIDE - MX BOOT - US - EUR - JPN

Compare the measurement (in cm) of the longest part of the foot using the table below:
cross reference this value against the “**SHOE INSIDE LENGTH**”.
Then, from this column, check whether the measured length of the foot is greater than the value of the corresponding “**COMFORT SIZE**”.
If you have from same column “**SHOE INSIDE LENGTH**” < measured length of your foot < “**COMFORT SIZE**” you will have the correct shoe size to order.
